HARVARD

Brain Science Initiative

Harvard Brain Science Initiative

Wednesday, September 28th | 3:30pm Talks | 4:45pm Appetizers

Northwest Building, Room 243; 52 Oxford Street, Cambridge, MA
~Also livestreamed via Zoom~

Event Description

Neuroscientific evidence is increasingly being applied in legal cases, and legal regulations significantly shape neuroscience research and clinical applications of neurotechnologies. In this talk, Dr. Lázaro-Muñoz and Dr. Shen will provide an overview of the emerging field of “neurolaw”, discussing how brain science is being applied in the courtroom and how law intersects with neuroscience research. The talk will also explore new cross-campus collaborations at Harvard, and emerging funding opportunities for addressing legal, ethical, diversity, and equity challenges in brain science research projects.

Open to all Harvard students, fellows, faculty, and staff.

Questions? Email us at info@brain.harvard.edu.

Panelists

Francis X. Shen, JD, PhD

Faculty Member, Harvard Medical School Center for Bioethics and Massachusetts General Hospital
Department of Psychiatry; University Affiliate Faculty,
Harvard Law School

Gabriel Lázaro-Muñoz, JD, PhD

Assistant Professor, Harvard Medical School Center for
Bioethics and Massachusetts General Hospital
